

Clinical Pharmacology Of Cerebral Ischemia Contemporary Neuroscience 3rd Edition

Cerebral ischemia is a major cause of death and disability worldwide. The third edition of Clinical Pharmacology Of Cerebral Ischemia provides a complete overview of the pharmacology of stroke, from basic science to clinical trials.

This book is written by leading experts in the field and provides a comprehensive review of the latest research on the pharmacology of cerebral ischemia. It covers all aspects of stroke pharmacology, including:

- The pathophysiology of cerebral ischemia
- The pharmacology of neuroprotective agents
- The pharmacology of thrombolytic agents
- The pharmacology of antiplatelet agents
- The pharmacology of anticoagulant agents

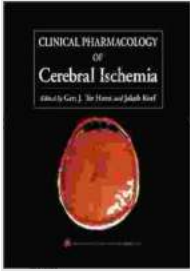

Clinical Pharmacology Of Cerebral Ischemia is an essential resource for neurologists, neurosurgeons, cardiologists, and other healthcare professionals who treat patients with stroke. It is also a valuable resource for researchers in the field of stroke pharmacology.

Print length : 315 pages

The third edition of Clinical Pharmacology Of Cerebral Ischemia has been extensively revised and updated to include the latest research on the pharmacology of stroke. This edition includes:

- New chapters on the pharmacology of stem cells and gene therapy for stroke
- New sections on the pharmacology of stroke in special populations, such as the elderly and children
- New information on the latest clinical trials of stroke treatments

"Clinical Pharmacology Of Cerebral Ischemia is the most comprehensive reference on cerebral ischemia available. It is a must-have for anyone who treats patients with stroke." - Dr. Howard S. Markus, President of the World Stroke Organization

"The third edition of Clinical Pharmacology Of Cerebral Ischemia is an essential resource for neurologists, neurosurgeons, cardiologists, and other healthcare professionals who treat patients with stroke. It is also a valuable resource for researchers in the field of stroke pharmacology." - Dr. Geoffrey A. Donnan, Professor of Neurology at the University of Oxford

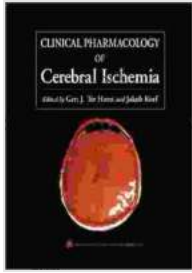

Clinical Pharmacology Of Cerebral Ischemia is available in hardcover and eBook formats. Free Download your copy today from Our Book Library, Barnes & Noble, or your favorite bookseller.

Table of Contents

- Chapter 1: The Pathophysiology of Cerebral Ischemia
- Chapter 2: The Pharmacology of Neuroprotective Agents
- Chapter 3: The Pharmacology of Thrombolytic Agents
- Chapter 4: The Pharmacology of Antiplatelet Agents
- Chapter 5: The Pharmacology of Anticoagulant Agents
- Chapter 6: The Pharmacology of Stem Cells and Gene Therapy for Stroke
- Chapter 7: The Pharmacology of Stroke in Special Populations
- Chapter 8: The Future of Stroke Pharmacology

Author Biographies

- Dr. John H. Zhang is a Professor of Neurology at the University of California, San Francisco. He is the Director of the Stroke Center at UCSF and the President of the World Stroke Organization.
- Dr. Robert A. Floyd is a Professor of Neurosurgery at the University of Pennsylvania. He is the Director of the Penn Stroke Center and the Chairman of the Department of Neurosurgery.
- Dr. J. Claude Hemphill is a Professor of Neurology at Emory University. He is the Director of the Emory Stroke Center and the President of the American Stroke Association.
