TIPS TO KEEP YOUR HEART HEALTHY

YOU CAN PREVENT HEART DISEASE BY MAKING THESE LIFESTYLE CHOICES:

KNOW YOUR FAMILY HISTORY

You have a greater risk if a parent or grandparent had heart disease.

DRINK IN MODERATION

Four fluid ounces of red wine a day can be all right, according to some physicians.

DON'T SMOKE

This means avoiding secondhand smoke, too.

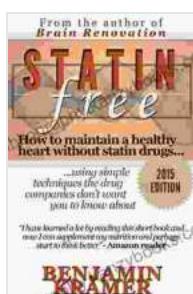

EAT A HEART-HEALTHY DIET

Make sure you get lots of fruits, vegetables, omega-3 fatty acids, and fiber-rich whole grains. Stick to less than 1,380 mg of sodium a day, and avoid sugar-sweetened beverages.

KNOW YOUR NUMBERS

Do you know what your good and bad cholesterol numbers are? Your body mass index? Check the Weight Control Information Network website created by the National Institutes of Health.
