At the core of Islam lies the unwavering belief in the oneness of God, known as monotheism. However, as we delve deeper into the practices of some Muslim communities, we encounter a stark contrast to this fundamental principle.

The book meticulously documents these deviations, exposing the underlying causes and consequences.

This chapter provides a comprehensive understanding of the complex forces that shaped the evolution of Islam.

The implications of polytheistic practices within Islam are far-reaching. The book highlights the detrimental effects on the individual's faith, the erosion of Islamic values within society, and the potential for conflict and division.
