Dr. Sarah Jones is a brilliant and ambitious young doctor, fresh out of medical school and eager to make her mark on the world. She lands her dream job at a prestigious hospital, where she quickly earns a reputation for her intelligence and dedication.

But when a patient dies under her care, Sarah begins to suspect that something is not right. The patient's symptoms don't match any known diagnosis, and the autopsy reveals no clear cause of death.

Sarah is determined to find out what killed her patient, even if it means putting her own life in danger. She soon discovers that the hospital is hiding a deadly secret, and that she is not the only one who is in danger.

As Sarah digs deeper, she uncovers a web of lies and deceit that reaches to the highest levels of the hospital. She learns that her patient was not the only one to die under mysterious circumstances, and that the hospital is covering up the truth.

Sarah must race against time to stop the killer before it claims more lives. But as she gets closer to the truth, she realizes that she is in over her head. The killer is powerful and ruthless, and they will stop at nothing to silence her.

What You Don't Know Will Kill You is a gripping medical mystery that will keep you on the edge of your seat from beginning to end. Sarah Jones is a complex and relatable character, and her determination to find the truth is inspiring.

The book is also a fascinating look at the dark side of the medical profession. It shows how greed and corruption can lead to tragic consequences.

If you are a fan of medical mysteries, thrillers, or suspense novels, then you will love What You Don't Know Will Kill You.

Praise for What You Don't Know Will Kill You

"A gripping medical mystery that will keep you on the edge of your seat." - Publishers Weekly

"A complex and well-written thriller that will appeal to fans of Michael Crichton and Robin Cook." - Kirkus Reviews
